Garmat® USA’s Zephyr Paint Booth is our most economically priced Down Draft Spray Booth. The Zephyr gives you the reliability and performance you have been looking for, in an economical package that fits most budgets.

- Dual Inlet Reverse Incline Fans with Airfoil Blades on exhaust
- Superior lighting, horizontally placed for virtually shadow free illumination
- Single row pit equipped with light weight, heavy duty grates

Garmat Downdraft Paint Booths feature dual inlet reverse incline fans providing the most consistent airflow of any downdraft booth on the market.
Cabin Design

- **Cabin Construction**
  - Insulated dual skin white powder coated galvanized steel interlocking wall panels
  - Drive in back out / Drive-thru models available

- **Lighting**
  - 27" model comes with (14) 4-tube light fixtures for a total of 56 tubes on DIBO or DT
  - Light fixtures are equipped with 4 energy efficient T8 5000k color corrected fluorescent tubes
  - Horizontal orientation for shadow free illumination
  - Interior accessible for easier maintenance
  - Dual voltage (120/277) electronic instant start ballasts
  - Interlock switch disables painting operation when light access door is open
  - ETL and ETL-C listed
  - 6-tube, 8-tube, LED and reflector upgrades available

- **Filtration**
  - Pre-Filtration: Long lasting washable pre-filters reduce contamination of ceiling filters
  - Ceiling Filters: Ideally sized segments allowing for ease of replacement. Filters are held in position by steel knife-edge closures. Achieves 99% capture efficiency on 10 micron particulate
  - Extract Filtration: Premium fiberglass paint arrestor filters are utilized for maximum particulate removal

- **Pit Design**
  - Single Row Pit is standard, 3-Row upgrade is available
  - Heavy Duty Light Weight Galvanized Pressed Steel Grates
    - Lighter than welded grates while providing the same load bearing capabilities
    - Easily serviced by one person
  - Grates run the entire length of the pit
  - Galvanized steel plate filter supports
  - Pit and Plenum balancing plates for balanced airflow

- **Doors**
  - **Entrance/Exit**
    - 10' W trifold doors with durable v-seal rubber gaskets for an airtight seal
    - Flush mounted tempered observation windows in all doors (32" x 35")
    - Heavy duty easily adjustable hinges with grease zerk fittings
    - Heavy duty latches and handles for years of reliability
    - Locking hardware built inside to minimize dirt collection zones
  - **Side Service Door**
    - Standard on drive-in back out
    - Large flush mounted observation window (28" x 35")
    - Durable v-seal rubber gasket for airtight seal
    - Panic latch
    - Heavy duty easily adjustable hinges with grease zerk fittings

- **Paint Cycles**
  - **Spray**
    - Air is heated prior to passing through cabin ceiling filters
  - **Bake**
    - 80% - 90% recycle on bake
    - Rapid temperature rise
    - Fully automatic purge and cool-down cycle

- **Control Panel**
  - ETL UL508 listed control panel features PLC which sequences spray and bake mode temperature settings

- **Options**
  - Accele-Cure®
  - Blower systems
  - Air Knife
  - Upgraded frontals
  - Drive-Thru
  - 3-Row pit upgrade available
  - Production enhancing accessories
  - Outdoor temper resistant doors
  - Light Protection Film
  - Upgraded Mechanical
